The review of AIT college**Likes**

- The college gives me the best memories also they take of the students like their own kids is the best part. As they are very knowledge in the concepts
- I likes the most is the environment the surrounding nature of the college.The college is having many trees which makes the students feel peaceful to study and the climate is very good in the college.

Dislikes

- The college fests are conducted very low. They conduct the chunchana event every year that is only fest. They give most preferences for the academics rather than fests.

Admission: I wrote comedk exam through i secured the AIR rank 22k and got seat in AIT. My first preference is also this college because it was having the affordable fees and it is near my city around 20km then it having the best environment so i choose this.The admission process of the college is through the entracnce exams and management quota. Enrance exams like kcet,comedk is acceptable where the cutoff in kcet is closed around 70k in the comedk u 32k.

- Sports prefer is not given even though they have a massive ground.
- There's not too many things that are to be disliked.

Admission: Admission process is simple and not that complicated. If u have required documents and all the details it'll be over even before you know. Admission persons are quick to react to your issues. Though I didn't apply for other colleges but as per my friends from other colleges I can say my college had smooth process. [...Read More](#)
